

# **Rochester Committee for Scientific Information**

## **Annual Meeting and Presentation**

**Co-sponsored by Monroe Community College**

**Wednesday, April 29, 2020**

**7:00 PM**

**“Mass Extinctions in Earth History”**

**Presented by**

**Jeff Over, PhD**

Dr. Jeffrey Over is an internationally known Paleontologist at SUNY Geneseo whose main interest is using conodonts (tooth-like remains of extinct eel-like marine animals) as stratigraphic markers and correlation tools, especially for NY Devonian shale formations. Dr. Over has worked in many states, countries (such as Mongolia, Morocco, Canada), and on several continents in his quest to improve geological knowledge concerning geologic time boundaries and major extinction events in earth history. He has been closely involved with the Pander Society and is currently working on the revision of the New York State Devonian Stratigraphic Chart. He also teaches courses on the “History of Life” and “Dinosaurs”. He received his Bachelor’s Degree from Allegheny College in PA, Masters from the University of Alberta and PhD from Texas Tech.

Pursuant to New York State Executive Order 202, which has placed NYS on Pause in response to the Covid-19 pandemic, this year’s RCSI Annual Meeting and Presentation will be held as a Zoom Meeting hosted by MCC as follows.
